WYKRES KLIMATYCZNY
(klimatogram)

Średnia roczna suma opadów

$50 \text{ mm} + 57 \text{ mm} + 70 \text{ mm} + 89 \text{ mm} + 122 \text{ mm} +$
 $+ 135 \text{ mm} + 150 \text{ mm} + 116 \text{ mm} + 91 \text{ mm} +$
 $+ 70 \text{ mm} + 61 \text{ mm} + 55 \text{ mm} = 1066 \text{ mm}$

Średnia roczna temperatura powietrza

$(-6^{\circ}\text{C}) + (-5^{\circ}\text{C}) + (-2,5^{\circ}\text{C}) + 4^{\circ}\text{C} + 9^{\circ}\text{C} +$
 $+ 12^{\circ}\text{C} + 15^{\circ}\text{C} + 14^{\circ}\text{C} + 8,5^{\circ}\text{C} +$
 $+ 4,5^{\circ}\text{C} + 0^{\circ}\text{C} + (-5,5^{\circ}\text{C}) = 48^{\circ}\text{C}$

$$48^{\circ}\text{C} : 12 = 4^{\circ}\text{C}$$

Średnia roczna amplituda temperatury powietrza

$$15^{\circ}\text{C} - (-6^{\circ}\text{C}) = 15^{\circ}\text{C} + 6^{\circ}\text{C} = 21^{\circ}\text{C}$$
